MyShopping.com.au is Australia's leading online comparison shopping website and is consistently leading the online shopping market today because of the wide range of products from thousands of its trusted online stores. With over 1 million unique visitors each month, MyShopping.com.au allows shoppers to save time, money and effort by using our easy-to-use search tools, search content, and unbiased product and merchant reviews.

MyShopping.com.au promises to deliver qualified leads to your business, because the prospective buyer undertakes comparison shopping research and analysis prior to arriving at your website. This means that the 'readiness to buy' of these shoppers is much higher than those arriving via other channels.
